Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 23 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly cloudy with drizzle on hills. Becoming windy.

Today:
A mostly cloudy day, with just a few sunny spells possible in eastern areas, although likely fewer than of late. Generally dry in the east, but with some drizzly outbreaks possible over western hills. Winds strengthening through the day. Maximum temperature 11 deg C (52 deg F).

Tonight:
Cloudy and windy, with some rain moving southeastwards, just clearing southern areas by dawn. Clear spells, lighter winds and temperatures dropping behind the rainband, giving a frost in northern areas. Minimum temperature 0 deg C (32 deg F).

Wednesday:
A chilly start with sunny spells. Some scattered showers soon developing, perhaps heavy at times. Becoming breezy. Maximum temperature 11 deg C (52 deg F).

Outlook for Thursday to Saturday:
Increasingly windy Thursday and Friday with outbreaks of rain or heavy showers. Becoming cold Friday with showers wintry over the hills. Still cold Saturday, but winds easing and fewer showers.
